

We are pleased to invite you to learn more about an exciting new homestay partnership opportunity with Global Bridge Associates (GBA).

GBA is an international education and student support agency that works closely with accredited schools to thoughtfully place international students with carefully vetted host families. As we expand our partnerships, we are seeking trusted domestic families who are interested in opening their homes and hearts to international students in a structured, well-supported homestay program.

Hosting through GBA is designed to be clear, safe, and rewarding. They take a hands-on approach to ensure both families and students are fully supported every step of the way. This includes:

- A thorough family vetting and onboarding process
- Careful student matching based on compatibility and expectations
- Ongoing guidance and regular check-ins from our Regional Coordinators
- Clear program guidelines, expectations, and support structures
- 24/7 assistance for students and host families when needed

Families who participate play an important role in helping students adjust to life in the U.S. while offering a stable, welcoming home environment. In return, host families receive a monthly stipend, professional support, and the opportunity to take part in a meaningful cultural exchange. We are gauging interest and would love to connect with families who may want to learn more about this potential partnership. Participation is optional, and expressing interest does not obligate you to host.

If you are interested in learning more and would like to submit a host family application, simply scan the QR code below. It will take you to additional information about the Global Bridge Associates Homestay Program and our online application. Our team is happy to answer any questions and guide you through every step of the process.
