

Dear Seton Catholic Central Community,

A HUGE thank you for participating in the book drive for Family Enrichment Network. For 3 days our shelf was bare, but with your generosity we have an abundance of books for our children and families to take home and read!

Through Building Brighter Futures for Broome, in conjunction with the Literacy Legacy Project at SUNY Broome, we received our bookshelf mid-September, 2018. Since then, with the heavy traffic at our Cherry Street site, nearly 3,000 books have been welcomed into low-income homes! Not only do many of these families lack the money to purchase books, but many don't share the love for reading or understanding of its importance.

Children and parents alike are excited to choose a new book, often on a daily basis, sometimes running to the shelf! I am so thrilled to be a part of this endeavor and watch the love of books ignite in these families.

Literacy Leads: To Employment, To Independence, To Opportunity!

Again, thank you for your generosity.

Sincerely,

*Linda Miller*

Developmental Specialist at Family Enrichment Network
