Students who participate in BOCES CTE classes spend a half day at BOCES and the other half of the day completing required courses here at SCC. These programs are 2-year programs that students complete in 11th & 12th grade. CTE courses include but are not limited to Auto Body, Building Trades/Plumbing, Hospitality Industry, Animal Science, IT Specialist, Cosmetology, Plant Science, and more. - The Youth Apprenticeship Program (YAP) through Broome-Tioga BOCES is designed to offer high school juniors and seniors the opportunity to see direct connections between school learning and employment while working in their occupational field of interest. Students are interviewed and hired by local employers for paid and unpaid positions. Students spend part of the school day at their employment site while taking online courses. The other part of the school day is spent at SCC taking required courses for graduation. The application process includes a

resume, working papers, course schedule, grades, attendance records, and recommendations from an educator and community member. Participating employers interview selected candidates and make their hiring decision based on the student's qualifications and interest in the occupational area. Students who are offered positions will be able to discuss their particular scheduling needs with the employer. Students need to provide their own transportation to the work site. There are positions available for the 2019-20 school year. (current sophomores and juniors may apply). Students can come to the Guidance Office to learn more.
