## Important Notice to Parent/Guardian of a Student with A Life-Threatening Health Condition

**Definition of a life-threatening condition:** A condition, including a known allergy, that will put the student in danger of death during the school day if a medication or treatment order is not in place.

**If your child has a life-threatening health condition, please immediately contact the School Health Office (Nurse's Office) and the School Office for a "Life-Threatening health Condition Packet" which includes the following:**

1. Student Emergency Care Plan for the Student's specific health condition
2. Parent and Physician's Authorization for Administration of Medication in School and School Activities

**The appropriate forms and any additional information you or the licensed Health Provider would like to share must be completed and returned to the School Health Office (Nurse's Office) for review and approval by the School Nurse Teacher / School Nurse as soon as possible.**

### **Reminder:**

*It is **the parent's/guardian's responsibility** to alert other school programs that their child has a health condition.*

*Please report immediately any changes needed in emergency contact information, medications, health status, etc. to the Health Office (Nurse's Office) and the School Office.*

If you have any questions or concerns, please contact the Principal and/or the School Nurse Teacher / School Nurse at your child's school.

Thank you for your assistance in helping us to provide a safe school experience for your child.

*This form should be given to all parents/guardians at the time of registration or when school staff is notified that a student has a life-threatening health condition.*
