GRADING SYSTEM

Passing Grade: 65

Grade Point Average

Seton Catholic Central students are graded on a percentage scale of 0-100. High school courses taken in grade 8 and beyond are included in the GPA computation. Grades received through 11th grade and the summer preceding 12th grade are used as a basis for computing the GPA. The weighting system described on this page is applied when determining a student's GPA. The weighted grade is computed by multiplying the earned grade by the GPA factor. The final grade point average is determined by adding all of the grades (non-weighted and weighted) and dividing by the total number of credits.

Rank

Seton Catholic Central does not report class rank.

Weighting System

Final course grades appear *unweighted* on the student transcript. Course grades are weighted accordingly only in the cumulative average. Through the 2016-17 school year, all courses are included in the overall GPA except Physical Education. Beginning with the 2017-18 school year, Physical Education is included in the overall GPA. Both the weighted and unweighted GPAs are available on the transcript.

Courses are weighted accordingly (GPA Factor):
