

Welcome to 2023-2024 School Year!

It's with great excitement that we begin another school year at St. James. Since 1937 St. James has provided an outstanding faith-based Catholic education to young students from Johnson City and the surrounding communities. As our mission statement indicates, we are continually striving to 'teach, inspire, guide, and support'. We hope to always remain open to the Holy Spirit as it guides our decision-making and care for the young children that you entrust to our care. Undoubtedly, like can be seen in any family or community, we will not always agree. However, we recognize that our growth as a school will depend on our ability to communicate through any struggle or conflict.

As we begin this new school year, let us all commit to working together to meet the needs of our students, to surround them with care for who they are today, and hold our expectations for them high. Together we can help them to become the beautiful sons and daughters of God that they were created to be.

God bless all of you.

Jim Abrams
Principal
