Dear CSBC community,

Recent disturbing events remind us to take pause and remember the teachings of our Catholic faith. As a Catholic community, we are committed to the respect for diversity, social justice, and the lives of all humankind. There is no place for racism within our faith community. CSBC principals and teachers work to ensure that students gain an understanding about the injustices related to racism and related issues that trouble our society. I ask you to join me in prayer for the changes that are needed at this time to heal our nation.

Thank you,
Elizabeth Carter, PhD
President, Catholic Schools of Broome County
